WORK EXPERIENCE

Web Developer / Owner – Gregory J Development (2017 - Present)

- Worked with small businesses and individuals to help them with any technical projects they needed such as website & podcast creation, and social media.
- Trained clients to be able to use tools to ensure they can understand what is needed without help.

Web Developer Intern- McGraw-Hill Education Canada (April 2016 - May 2016)

- Used web design principles and best practices to create UI/UX responsive website using HTML5, PHP, and AJAX in 2 weeks.
- Created sliders within WordPress to help promote upcoming / popular books.

Social Media Ambassador – Durham College (September 2014 – August 2015)

- Chosen out of 11,000 students to work with marketing department to promote the college using various social media.
- Talked with over 100 future students, their parents and members of the public to answer questions they have about the college (everything from program questions, to why Durham College)

EDUCATION

Computer Programmer Analyst – 3-year Diploma (2013 - 2016)

Created websites and programs in HTML, CSS, PHP, Java, SQL, C/C++, COBOL/Mainframe, ASP.NET, and Ruby on Rails.
